

Hosted PBX Phones

ValTech Communications provides the most advanced feature to button configurations of any hosted VOIP PBX provider today. Our phones perform features that most providers require a desktop client to accomplish. The following are the phones that you can purchase from ValTech Communications that ship preconfigured and ready to go.

Aastra 6753i

The Aastra 6753i offers powerful features and flexibility and is our basic level IP telephone. With a 3 line LCD display, the 6753i is fully integrated with the ValTech Communications PBX. The 6753i is ideally suited for light to regular IP telephone applications for the small and large business market and enterprise applications.

Aastra 6755i

The Aastra 6755i offers 144 x 75 pixel backlit LCD display and 6 dynamic context-sensitive softkeys. The 6755i is fully integrated with the ValTech Communications PBX. It is ideally suited for moderate to heavy telephone users who require more one touch feature keys and XML based programs.

Aastra 6757i

The Aastra 6757i offers a large 144 x 128 pixel graphical backlit LCD display and 6 dynamic context-sensitive softkeys. The 6757i is fully integrated with the ValTech Communications PBX. It is ideally suited for executives and heavy telephone users who require more one touch feature keys and a large screen to take full advantage of XML based programs.

Aastra 6757i CT

The Aastra 6757i CT is an IP telephone that includes an integrated WDCT cordless mobility handset for coverage up to 300,000 sq ft. With a large 144 x 128 pixel graphical backlit LCD display and 6 dynamic context-sensitive softkeys, the 6757i CT base unit is fully integrated with the ValTech Communications PBX. It is ideally suited for executives, managers, and heavy telephone users who require more one touch feature keys and a large screen along with the mobility of the cordless handset.

Aastra 6739i

The Aastra 6739i features a 5.7" full color high resolution VGA touch screen display, with an intuitive graphical user interface, touch screen softkeys, full duplex wideband audio speaker and handset, dedicated LED indicators, built-in bluetooth interface, USB port, dual Gigabit Ethernet Interfaces, flexible headset options and extensive call management capabilities.
